Premankur Banerjee

1421 W Adams Blvd, Los Angeles, CA • (213) 696-7642 • premankur.banerjee@usc.edu • LinkedIn • Website

My research lies at the confluence of Haptic perception and multimodal feedback, Extended Reality (VR/AR/MR), and embodied human–AI interaction. I design, develop and evaluate end-to-end interactive systems that integrate real-time sensing, feedback, and new forms of physical interaction (direct and AI-mediated), to study how people perceive and engage with these systems. My work focuses on transforming prototypes into validated, scalable systems, turning bold ideas into innovative, tangible technologies and *impossible* interactions part of everyday life.

EDUCATION

University of Southern California Aug 2023 – Present
Ph.D. in Computer Science; GPA: 3.95/4.00
Expected graduation: **Summer 2027**.

Technical University of Munich Oct 2019 – Dec 2021
M.Sc. in Electrical and Computer Engineering, *with distinction*; GPA: 1.4/1.0

University of Calcutta Aug 2015 – May 2019
B.Tech. in Electronics and Communications Engineering; GPA: 9.16/10.00

APPOINTMENTS

Stealth Startup Oct 2026 – Present
Chief Technology Officer (CTO)
Los Angeles, CA

University of Southern California – HaRVI Lab Aug 2023 – Present
Graduate Research Assistant, Haptics Robotics and Virtual Interactions Lab
Thomas Lord Department of Computer Science, Los Angeles, CA

Sorbonne Université – ISIR Jun 2022 – May 2023
Research Engineer, Human–Computer Interface Group
Institut des Systèmes Intelligents et de Robotique, Paris, France

German Aerospace Center (DLR) May 2021 – Nov 2021
Research Intern, Master Thesis
Munich, Germany

Technical University of Munich – LMT Nov 2019 – Apr 2021
Research Intern, Chair of Media Technology
Munich, Germany

Indian Space Research Organization – RRSC, ISRO Apr 2018 – Aug 2018
Research Intern, Remote Sensing Group
Kolkata, India

FELLOWSHIPS, RESEARCH SUPPORT, AND HONORS

Fellowships and Scholarships

Link Foundation Fellowship in Modeling, Simulation, and Training ($35,000) 2026–2027

USC Viterbi School of Engineering Fellowship ($42,000) 2025–2026

Deutschlandstipendium (German National Scholarship), TU Munich (€7,200) 2020–2021

Research Support

Southern California Clinical and Translational Science Institute (NIH/NCATS) Grant ($100,000) 2023–2024

Awards

Undergraduate Mentor Award, Thomas Lord Department of Computer Science, USC Viterbi School of Engineering 2025

RESEARCH EXPERIENCE AND SELECTED PROJECTS

University of Southern California – HaRVI Lab **2023–Present**

Surfing in Virtual Reality *Project Lead*

Developed a VR surfing simulator integrating a 6-DoF motion platform, center-of-pressure-based navigation, and multisensory feedback. Conducted user studies investigating motion perception, control, and user experience.

Multi-User Virtual System for Bidirectional, Mediated, Real-Time Social Touch *Project Lead*

Developed a multi-user VR/MR social-touch system using 52-actuator wearables and low-latency wireless communication, facilitating bidirectional physical interaction and studying presence, embodiment, and affective experience.

AI-Mediated Affective Haptic Interactions *Project Lead*

Developed an AI-mediated social-touch framework combining LLM-based haptic generation, multimodal affect sensing, and real-time feedback across human-controlled, human-prompted, and autonomous interaction.

Redirected Walking in VR Using Ankle-Based Haptics *Project Co-Lead*

Developed a gait-synchronized ankle-worn haptic system with wireless vibrotactile actuation and IMU sensing.

Disability-Centered Vibrotactile System *Project Co-Lead*

Collaborated with USC School of Cinematic Arts, the Leonardo Crip Tech Incubator, and ASU to co-design modular wearable haptics and a Unity-based touch composition interface with Disabled artists, evaluated through user studies and live performances.

Sorbonne Université – ISIR (HCI Group) **2022–2023**

Developed real-time force-feedback control for a room-scale, encounter-type haptic device delivering over 100 N of kinesthetic feedback. Investigated full-body VR interactions, redirected walking, and visuo-haptic illusions.

German Aerospace Center (DLR) **2021**

Developed a device-agnostic multimodal VR evaluation framework for comparing tactile displays across friction, temperature, texture, and shape modalities, validated through user studies with two novel tactile devices.

Technical University of Munich – LMT **2020–2021**

Developed autoencoder-based vibrotactile signal compression for networked haptic communication. Implemented ROS–Unity robotic simulations like autonomous grasping and liquid-pouring tasks for Kinova MOVO in Gazebo.

TEACHING EXPERIENCE

CSCI-526: Advanced Mobile Devices and Game Consoles Fall 2026
Teaching Assistant
University of Southern California.

DSCI-517: Research Methods and Analysis for User Studies Fall 2024
Teaching Assistant
University of Southern California.

EI72071: Computational Haptics Laboratory Summer 2021
Lab Lecturer and Teaching Assistant
Technical University of Munich.

EI5052: Time-Varying Systems and Computation Winter 2021
Teaching Assistant
Technical University of Munich.

EI7341: Image and Video Compression Spring 2021
Teaching Assistant
Technical University of Munich.

EI70220: Digital Signal Processing Summer 2020
Teaching Assistant
Technical University of Munich.

RESEARCH MENTORING

Jiaxuan Wang (USC CS master student) | now: **RayNeo Innovation Technology, Shenzhen**,

Evelyne Morisseau (UC Berkeley MechE undergrad, SURE program) | now: **PhD student at Cornell**,

Vivien Chen (USC CS undergrad) | now: **SWE Intern, Meta**,

Kyuhong Lee (USC CS undergrad) | now: **SWE Intern, Google**,

Mia Montiel (USC BME undergrad) | now: **Medical student at MCW**,

Olivia Means (USC BME undergrad, AME master student) | now: **HRL Laboratories**,

Lauren Tomita (USC BME undergrad) | now: **Medtronic**,

Arike Cooker (USC BME undergrad) | now: **White Memorial Medical Center**,

Xander Neary (UCLA CS undergrad, SURE program), **Brandon Xu** (USC CS master student),

Joanne Lee (USC CS undergrad), **Joyce Ng** (USC CS undergrad), **Magen Mozeh** (USC CS PDP),

Arushi Mundergi (USC CS undergrad), **Chelsea Zhang** (USC CS undergrad), **Olivia Xue** (USC CS PDP),

Pablo Murillo (USC CS VSI undergrad), **Deborah Folorunsho** (USC CS VSI undergrad),

Mayte Morales Ramirez (USC CS VSI undergrad), **Chitkala Dharmavaran** (USC CS master student)

Read some of the student testimonials here.

INVITED RESEARCH TALKS

Indian Institute of Technology (IIT) Bombay, hosted by Dr. Suhas Kakade, India — Dec 2025

USC Computer Science Department Advisory Board, hosted by Prof. Nenad Medvidović, USA — Nov 2025

University of Calcutta, Institute of Radio Physics and Electronics (IRPE), India, hosted by Prof. Sumitra Mukhopadhyay — Jul 2024

TU Dresden, Centre for Tactile Internet with Human-in-the-Loop (CeTI) Convention, Germany — Feb 2022

ACADEMIC AND PROFESSIONAL SERVICE

Peer Reviewing – Journals

International Journal of Human–Computer Interaction; IEEE Transactions on Haptics (ToH); IEEE Transactions on Visualization and Computer Graphics (TVCG) IEEE Robotics and Automation Letters (RA-L); Frontiers in Virtual Reality; Springer Nature – *Virtual Reality*; Perspectives of Communication & Media (PCM); Wisdom Academic Press.

Peer Reviewing – Conferences

ACM Conference on Human Factors in Computing Systems (CHI) 2027; IEEE World Haptics Conference (WHC) 2023, 2025; IEEE Conference on Virtual Reality and 3D User Interfaces (IEEE VR) 2025; IEEE International Symposium on Mixed and Augmented Reality (ISMAR) 2026; ACM Symposium on User Interface Software and Technology (UIST) 2025; IEEE Haptics Symposium 2024, 2026; EuroHaptics 2022, 2024;

MEDIA COVERAGE AND SCIENTIFIC OUTREACH

Research and Press Coverage

- Multi-user mediated social-touch work featured by USC Today[1], Interesting Engineering (TikTok), YouTube, and the Arduino blog.
- VR surfing research featured by KTLA, USC Today[2], USC Today[3], USC Viterbi Magazine, and USC Health Sciences Campus News.
- *Crip Haptic Jam* featured by the Leonardo Crip Tech Incubator and Ability Central.

Scientific Outreach

- Volunteered to teach Robotics at Peace4Kids, Viterbi K-12 STEM Center and South LA Robotics, through University of Southern California in Los Angeles.
- Demonstrated CoVR at Fête de la Science 2022, contributing to public engagement in science and technology.

OTHER PROFESSIONAL EXPERIENCE

Stealth Startup, Los Angeles, CA — Oct 2026 – Present

Chief Technology Officer (CTO)

Leading technical development and commercialization of a multisensory VR surfing simulator into a scalable platform for training and immersive technology for entertainment.

TECHNICAL EXPERTISE

- **Programming and Software:** C++, C, C#, Python, MATLAB, Unity 3D, Unreal Engine, CHAI3D, OpenHaptics, Arduino and microcontroller programming, Blender, FreeCAD, ROS.
- **Haptics, XR, and Sensing:** Actuators, force sensing/feedback, tactile sensing, wearables, filtering, temporal smoothing, multiplayer VR/AR, pressure sensing, affective haptics, gesture input, motion/body tracking (OptiTrack, Intel RealSense, MediaPipe, BlazePose), 6-DoF motion platforms, telepresence, generative haptics, mediated social touch.
- **Simulation and Robotics:** MuJoCo, Gazebo, physics modeling, OpenGL, room-scale VR, autonomous robotics, inverse kinematics, IMUs, sensor fusion, signal processing, real-time networking (TCP/UDP), wireless protocols, teleoperation.
- **Machine Learning:** CNNs, autoencoders, interactive machine learning, large language models, prompt engineering, local LLM inference, multimodal affect recognition, affective computing, PyTorch, TensorFlow, Transformers.
- **Human-Subjects Research:** Experimental design, user-centered design, protocols, data processing, and statistical analysis (ANOVA, nonparametric tests, mixed models); studies involving more than 200 participants in total.

ADDITIONAL INFORMATION

Languages: English, Bengali, Hindi (native); German (professional); French and Spanish (elementary).

Hobbies: Acting, filmmaking, VFX design, reading, photography, singing, and film scoring.
